SOME RUGODY HAND-TO-HAND FIGHTING

Ismailia, August 29 .- When the morning broke yesterday great excitement prevailed in our camp at Kassassin, in consequence of the Egyp tians showing themselves in considerable force in various directions. Gen- cavalry charge at Kassassin Loch as erai Graham presently sent Major Hart with an escort of mounted infantry under command of Lieutenant Pigott, to ascertain the strength and exact position of the enemy. Major Hart proceeded in the direct on of Tel-el-Kebir, and had gone forward two miles when the enemy opened ward two miles when the enemy opened the arm and the other hand nearly ward two miles when the enemy opened fire with two guns. Lieutenant Pigott dismounted and returned the fire briskly, the men holding their ground well for a time, though eventually obliged to retire upon our camp. At ten o'clock 4000 Bedouins appeared on the right and front, extending two miles, but on our guns opening fire ou them they retired. About three o'clock their infantry advanced in open order upon our left, bringing up several guns, which they placed at short distances from each other, and presently showed several pieces of artillery on our right. Our guns opened fire, and our men turned out to face the attack. The fight now in the first ward on the face the attack. He led the way along the ridge with the idea of outflanking the enemy and turning his position. Colonel Russell brought his everlasting infamy upon the Egyptian men over four miles of heavy ground, so that by nine o'clock, when they silently halted, they found themselves so close to the Egyptians that their shells went over their heads diers, and even good troops, when in quick succession, landing nearly taken by surprise. In a very few moments the horsemen charged the enemy with great bravery, and

A general rout ensued, Arabi's artillerymen getting their guns away, while the infantry fell into a disordered mass upon the banks of the canal. A few dashed into the water to save themselves. If we sit down at set of sun,
And count the things that we have done,

That helped some soul, and nothing cost,
Then count that day as worse than lost.

To make the Palouse region more valuable, several branch lines of railroad are rapidly being built east and west, north and south. One line from Walla Walla, crossing the Snake river at Texas Ferry, is building northward. Another line from Grange City follows the Snake river eastward to Lewiston, on the Idaho line. At Twin Springs, on the main line of the Northern Pacific, I noticed working parties beginning to grade a branch road through to the Palouse, to Endicott and to Colfax. At Endicott this road will again branch in two lines, one running to Moscow, Idaho, and the other to Farmington and on to the Cœur d'Alene valley.
